POSITIONING

The «Swiss Digital Ranking» is a comprehensive overview of ICT companies in Switzerland. It includes information on business areas, previous-year revenue, and full-time employees, based on company disclosures, public data, or estimates. In addition, it brings together the most successful Swiss service providers that have been recognized at the Netzmedien Awards – Best of Swiss Web, Best of Swiss Apps, and Best of Swiss Software.

The «Swiss Digital Ranking» provides a comprehensive view of Switzerland as an ICT nation: from the overview to the most important and dynamic market segments in a differentiated view.

The accompanying coverage addresses current topics, including the question of how AI is changing IT as we have known it for the past 50 years. The “Swiss Digital Ranking” provides answers and offers insights into the key players in the industry and the prevailing trend topics.

TARGET GROUP

- C-levels at user companies or their ICT managers
- All ICT investment managers in Swiss companies with 50 or more employees
- System integrators
- All providers and implementation partners of hardware, software, services, networks, consulting services
- Value-added resellers
- Value-added distributors
- BPO and BPM providers
- Intermediaries such as IT consultants, ICT consultancies
- Associations
- PR agencies
- Media

MAIN TOPICS

- Overall ranking of the most important digital companies in Switzerland
- Sector rankings in various categories from hardware and software to consulting and services
- Detailed rankings for exciting categories and submarkets
- Technology trends in artificial intelligence, cybersecurity, cloud and managed services
- Market trends in e-health, e-government and digital finance
